FOR IMMEDIATE RELEASE: November 8, 2022

Centrus Reports Third Quarter 2022 Results

- Secured more than \$270 million in new sales contracts and commitments year-to-date
- Continued to meet all milestones under the contract with the U.S. Department of Energy (DOE) to deploy a cascade of centrifuges to demonstrate production of High-Assay, Low-Enriched Uranium (HALEU)
- Net loss of \$6.1 million on revenue of \$33.2 million in Q3 2022, compared to net income of \$42.1 million on \$91.3 million in revenue in Q3 2021

BETHESDA, Md. - Centrus Energy Corp. (NYSE American: LEU) ("Centrus" or the "Company") today reported third quarter 2022 results. The Company reported a net loss of \$6.1 million for the quarter ended September 30, 2022, compared to net income of \$42.1 million for the third quarter of 2021. The prior year period included the positive impact of a one-time item totaling \$43.5 million, as described below. The net loss allocable to common stockholders in the third quarter of 2022 was \$6.1 million, or \$0.42 (basic and diluted) per common share.

"While our third quarter results reflected the typical lumpiness attributable to the timing of customer deliveries that we regularly discuss on earnings calls, we continued to see strong momentum across our business segments, as reflected in both our total order book value and in the broader trends toward greater investment in nuclear energy," said Centrus President and CEO Daniel B. Poneman. "Congress approved a \$700 million investment in High-Assay, Low-Enriched Uranium (HALEU) as part of the U.S. Inflation Reduction Act, and there is growing bipartisan support for further action to jumpstart construction of domestic LEU and HALEU capacity. We look forward to seeing how DOE implements that funding. In the first nine months of 2022, we also secured \$270 million in new sales contracts and commitments with contract terms extending through 2030 to support our long-term success. As the only company with a U.S. Nuclear Regulatory Commission license to produce HALEU, as well as the only domestic operator of deployment-ready enrichment technology in the United States, Centrus is well positioned to serve the growing need for critical fuels for advanced nuclear reactors both domestically and around the world."

Financial Results

Centrus generated total revenue of \$33.2 million for the third quarter of 2022 compared to \$91.3 million in the third quarter of 2021.

Revenue from the LEU segment was \$20.2 million and \$32.0 million in the three months ended September 30, 2022 and 2021, respectively, a decrease of \$11.8 million. The decrease is due to a decrease in the average price of SWU sold, partially offset by an increase in the volume of SWU sold, for the three months ended September 30, 2022, largely due to the variability in timing of utility customer orders and related contracts.

Revenue from the Technical Solutions segment was \$13.0 million and \$59.3 million in the three months ended September 30, 2022 and 2021, respectively, a decrease of \$46.3 million. Revenue in the third quarter of 2021 included \$43.5 million related to the settlement of the Company's claims for reimbursements for certain pension and postretirement benefits costs incurred in connection with a past cost-reimbursable contract performed at the Portsmouth GDP. Excluding this settlement, the decrease in revenue in the three months ended September 30, 2022, was primarily related to a \$1.2 million decrease in revenue generated by the HALEU Contract and a \$0.8 million decrease in revenue generated by the X-energy contract, as well as a \$0.8 million decrease across other contracts.

Cost of sales for the LEU segment was \$18.9 million and \$23.7 million in the three months ended September 30, 2022 and 2021, respectively, a decrease of \$4.8 million. The decrease is primarily a result of a \$4.8 million charge to cost of sales for the three months ended September 30, 2021, for the revaluation of obligations for SWU borrowed.

Cost of sales for the Technical Solutions segment was \$12.0 million and \$18.1 million in the three months ended September 30, 2022 and 2021, respectively, a decrease of \$6.1 million. The decrease of \$6.1 million in the three months ended September 30, 2022, is related to a reduction in costs of approximately \$4.5 million associated with the HALEU Contract, \$0.9 million associated with the X-energy contract, and \$0.7 million associated with other contracts.

Gross profit for the Company was \$2.3 million and \$49.5 million in the three months ended September 30, 2022 and 2021, respectively. This decrease was primarily attributed to the settlement of the Company's claims for reimbursements in the third quarter of 2021 for certain pension and postretirement benefits costs as previously discussed.

New Sales Contract and Commitments

On September 14, 2022, Centrus announced that it had secured more than \$270 million in new sales contracts and commitments year-to-date. These sales include deliveries of SWU and uranium from 2022 through 2030.

About Centrus Energy Corp.

Centrus Energy is a trusted supplier of nuclear fuel and services for the nuclear power industry. Centrus provides value to its utility customers through the reliability and diversity of its supply sources – helping them meet the growing need for clean, affordable, carbon-free electricity. Since 1998, the Company has provided its utility customers with more than 1,750 reactor years of fuel, which is equivalent to 7 billion tons of coal. With world-class technical and engineering capabilities, Centrus is also advancing the next generation of centrifuge technologies so that America can restore its domestic uranium enrichment capability in the future. Find out more at www.centrusenergy.com.

Forward-Looking Statements:

This news release contains "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934. In this context, forward-looking statements mean statements related to future events, may address our expected future business and financial performance, and often contain words such as "expects", "anticipates", "intends", "plans", "believes", "will", "should", "could", "would" or "may" and other words of similar meaning. Forward-looking statements by their nature address matters that are, to different degrees, uncertain.

For Centrus Energy Corp., particular risks and uncertainties that could cause our actual future results to differ materially from those expressed in our forward-looking statements include but are not limited to the following which are, and will be, exacerbated by the novel coronavirus ("COVID-19") pandemic and subsequent variants, and any worsening of the global business and economic environment as a result; risks related to the war in Ukraine and geopolitical conflicts and the imposition of sanctions or other measures imposed by either the U.S. or foreign governments, organizations (including the United Nations, the European Union or other international organizations), entities or persons, that could directly or indirectly impact our ability to obtain or sell low enriched uranium ("LEU") under our existing supply contract with the Russian government-owned entity TENEX, Joint-Stock Company ("TENEX"); risks related to the refusal of TENEX to deliver LEU to us if TENEX is unable to receive payments, receive the return of natural uranium, as a result of any government, international or corporate actions or directions or other reasons; risks related to natural and other disasters, including the continued impact of the March 2011 earthquake and tsunami in Japan on the nuclear industry and on our business, results of operations and prospects; risks related to financial difficulties experienced by customers or suppliers, including possible bankruptcies, insolvencies or any other inability to pay for our products or services or delays in making timely payment; risks related to pandemics, endemics, and other health crises; risks related to the impact and potential extended duration of a supply/demand imbalance in the market for LEU; risks related to our ability to sell the LEU we procure pursuant to our purchase obligations under our supply agreements including those imposed under the 1992 Russian Suspension Agreement as amended, international trade legislation and other international trade restrictions; risks related to existing or new trade barriers and contract terms that limit our ability to procure LEU for, or deliver LEU to customers; risks related to pricing trends and demand in the uranium and enrichment markets and their impact on our profitability; risks related to the movement and timing of customer orders; risks related to our dependence on others, such as our transporters, for deliveries of LEU including deliveries from TENEX, under our commercial supply agreement with TENEX and deliveries under our long-term commercial supply agreement with Orano Cycle ("Orano") or other suppliers; risks associated with our reliance on third-party suppliers and service providers to provide essential products and services to us; risks related to the fact that we face significant competition from major producers who may be less cost sensitive or are wholly or partially government owned; risks that our ability to compete in foreign markets may be limited for various reasons; risks related to the fact that our revenue is largely dependent on our largest customers; risks related to our sales order book, including uncertainty concerning customer actions under current contracts and in future contracting due to market conditions and our lack of current production capability; risks related to whether or when government funding or demand for high-assay low-enriched uranium ("HALEU") for government or commercial uses will materialize; risks and uncertainties regarding funding for continuation and deployment of the American Centrifuge technology; risks related to (i) our ability to perform and absorb costs under our agreement with the U.S. Department of Energy ("DOE") to deploy a cascade of centrifuges to demonstrate production of HALEU for advanced reactors (the "HALEU Contract"), (ii) our ability to obtain contracts and funding to be able to continue operations and (iii) our ability to obtain and/or perform under other agreements; risks that (i) we may not obtain the full benefit of the HALEU Contract and may not be able or allowed to operate the HALEU enrichment facility to produce HALEU after the completion of the existing HALEU Contract or (ii) the HALEU enrichment facility may not be available to us as a future source of supply; risks related to uncertainty regarding our

ability to commercially deploy competitive enrichment technology; risks related to the potential for further demobilization or termination of our American Centrifuge work; risks that we will not be able to timely complete the work that we are obligated to perform; risks related to our ability to perform fixedprice and cost-share contracts such as the HALEU Contract, including the risk that costs could be higher than expected; risks related to our significant longterm liabilities, including material unfunded defined benefit pension plan obligations and postretirement health and life benefit obligations; risks relating to our 8.25% notes (the "8.25% Notes") maturing in February 2027; risks of revenue and operating results fluctuating significantly from quarter to quarter, and in some cases, year to year; risks related to the impact of financial market conditions on our business, liquidity, prospects, pension assets and insurance facilities; risks related to the Company's capital concentration; risks related to the value of our intangible assets related to the sales order book and customer relationships; risks related to the limited trading markets in our securities; risks related to decisions made by our Class B stockholders regarding their investment in the Company based upon factors that are unrelated to the Company's performance; risks that a small number of holders of our Class A Common Stock, par value \$0.10 per share ("Class A Common Stock") (whose interests may not be aligned with other holders of our Class A Common Stock), may exert significant influence over the direction of the Company; risks related to (i) the use of our net operating losses ("NOLs") carryforwards and net unrealized built-in losses ("NUBILs") to offset future taxable income and the use of the Rights Agreement (as defined herein) to prevent an "ownership change" as defined in Section 382 of the Internal Revenue Code of 1986, as amended (the "Code") and (ii) our ability to generate taxable income to utilize all or a portion of the NOLs prior to the expiration thereof and NUBILs; failures or security breaches of our information technology systems; risks related to our ability to attract and retain key personnel; risks related to the potential for the DOE to seek to terminate or exercise its remedies under its agreements with the Company; risks related to actions, including reviews, that may be taken by the United States government, the Russian government or other governments that could affect our ability to perform under our contractual obligations or the ability of our sources of supply to perform under their contractual obligations to us; risks related to our ability to perform and receive timely payment under agreements with the DOE or other government agencies, including risks and uncertainties related to the ongoing funding by the government and potential audits; risks related to changes or termination of agreements with the U.S. government or other counterparties; risks related to the competitive environment for our products and services; risks related to changes in the nuclear energy industry; risks related to the competitive bidding process associated with obtaining contracts, including government contracts; risks that we will be unable to obtain new business opportunities or achieve market acceptance of our products and services or that products or services provided by others will render our products or services obsolete or noncompetitive; risks related to potential strategic transactions that could be difficult to implement, disrupt our business or change our business profile significantly; risks related to the outcome of legal proceedings and other contingencies (including lawsuits and government investigations or audits); risks related to the impact of government regulation and policies including by the DOE and the U.S. Nuclear Regulatory Commission; risks of accidents during the transportation, handling or processing of hazardous or radioactive material that may pose a health risk to humans or animals, cause property or environmental damage, or result in precautionary evacuations; risks associated with claims and litigation arising from past activities at sites we currently operate or past activities at sites that we no longer operate, including the Paducah, Kentucky, and Portsmouth, Ohio, gaseous diffusion plants; and other risks and uncertainties discussed in this and our other filings with the Securities and Exchange Commission ("SEC"), including under Part I, Item 1A - "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021, and under Part II, Item 1A - "Risk Factors" in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2022.

These factors may not constitute all factors that could cause actual results to differ from those discussed in any forward-looking statement. Accordingly, forward-looking statements should not be relied upon as a predictor of actual results. Readers are urged to carefully review and consider the various disclosures made in this report and in our other filings with the SEC that attempt to advise interested parties of the risks and factors that may affect our business. We do not undertake to update our forward-looking statements to reflect events or circumstances that may arise after the date of this press release except as required by law.

CENTRUS ENERGY CORP. ADJUSTED NET INCOME (LOSS) PER SHARE RECONCILIATION TABLE

The Company measures Net Income (Loss) and Net Income (Loss) per Share both on a GAAP basis and on an adjusted basis to exclude deemed dividends allocable to retired preferred stock shares ("Adjusted Net Income (Loss)" and "Adjusted Net Income (Loss) per Share"). We believe Adjusted Net Income (Loss) and Adjusted Net Income (Loss) per Share, which are non-GAAP financial measures, provide investors with additional understanding of the Company's financial performance as well as its strategic financial planning analysis and period-to-period comparability. These metrics are useful to investors because they reflect how management evaluates the Company's ongoing operating performance from period-to-period after removing certain transactions and activities that affect comparability of the metrics and are not reflective of the Company's core operations.
